

## Product Change Notice

<b>Changed Product:</b> Packing changes for all 2.5" SSD.	<b>Doc. No.:</b> PCN_099-XR2XF -1V0
	<b>Date:</b> 2017/06/30

**Change Description and the reasons:**  
 Most customers complain it's very time consuming to unpack the current 2.5" SSD boxes and not environmentally friendly. Also to avoid the unnecessarily missing during the transport process, we are forced to enlarge the box slightly to meet the minimum limit for the air transportation. The new box can be installed 10 pcs of SSD at most.

**Key Dates:**  
 The change will be active as soon as the previous kraft paper box run out, the foam protective box will be used instead.

### Appendix:

Difference	Before Change (Kraft Paper Box + White Box)	After Change (Foam Protective White Box)
1-5 pcs	 24x15x5.5(cm)	 24x15x9.5(cm)
5 pcs+		 Carton, Top/Bottom Foam, Protection Foam
