Description :																	
<p>2017 / 10 / 17 APRO announced officially EOL for: HERCULES-PB Series - Industrial SLC & MLC USB 2.0 Flash Disk Generation 4</p> <p>This decision was based on the less and less demands for G4 USB disks since G4SB USB disks launched. In fact, G4 & G4SB are used the identical Controller and Flash IC. The only difference is that G4SB Housing has screw thread on the bottom of UFD (USB Flash Disk) which allows the cap locked on the bottom of UFD. Therefore G4SB has more inquires than G4 USB disk.</p> <p>We hope this advanced notice would provide you the sufficient time to arrange the new sample evaluation. If you have any questions about this End of Life notification, please contact your APRO account manager.</p> <p>Please refer to below active date's information for your earlier last order planning. Last Order Date : Before 2017 / 12 / 29, Friday Last Shipping Date : Before 2018 / 03 / 30, Friday</p>																	
Alternative Solution :																	
<p>The alternative solution is HERCULES-PB Series (G4SB), please click below for the product specification.</p> <p>SLC: http://apro-tw.com/Databank/2017_Catalog_Spec-sheet/SLC/SLC_UFD_G4SB_HERCULES-PB.pdf MLC: http://apro-tw.com/Databank/2017_Catalog_Spec-sheet/MLC/MLC_UFD_G4SB_HERCULES-PB.pdf</p>
